## QualySense elects Dr. Geoffrey Scott as its new Chairman of the Board

QualySense, a Swiss company developing cutting edge sorting technologies that help food, seed, and beverage companies achieving excellence in nutrition, health and safety announced today that Dr. Geoffrey Scott, currently member of the QualySense board of directors, will succeed Mr. Romaneschi as Chairman of the Board starting on Jan 4<sup>th</sup> 2016. Mr. Romaneschi will continue serving as Vice-Chairman.

Mr. Alberto Romaneschi declared: *"I'm extremely satisfied about the progress we made since the foundation of the company 5 years ago. We have started from an idea and today we have a disruptive technology, products (QSorter Explorer) and customers. I believe this is the perfect moment to transfer my leadership into the hands of Dr. Scott and to propel the company to another dimension".*

Dr. Geoffrey Scott said: *"In the last 5 years, Mr. Romaneschi has done a great job in establishing the proper foundations for QualySense to pursue its very ambitious goals. I appreciate the trust of my colleagues on the Board in selecting me to take the lead as Chairman of QualySense. This is an exciting time. The development of the company so far has been impressive and there are many great opportunities that we are now pursuing to ensure further growth and success in the future".*

### ABOUT QUALYSENSE

QualySense uses space technologies that combine Machine Vision and Near-Infrared spectroscopy to develop the **QSorter**, the first artificial intelligence robot for high-speed single kernel analysis and sorting of grains. The **QSorter** technology analyzes and sorts each grain individually based on its physical and compositional properties, which enables a reliable and sophisticated control solution aimed at increasing nutrition, health and safety of food products.
